

Stillwater Creek Biotechnical Stream Bank Stabilization Workshop Advanced Course

A Workshop in Stream Investigation, Stabilization and Design

Presented by:

Sacramento Watersheds Action Group and the Shasta College Foundation

- This 4 day workshop consists of hands-on learning, field instruction, and classroom instruction. Learn methodologies for planning, analyzing, and designing long-term stream stabilization /restoration projects using various environmentally-sensitive stream bank stabilization techniques.
- Attendees will apply state of the art bioengineering techniques to stabilize a stream bank!
- Utilize stream investigative skills learned in the beginners workshop and biotechnical streambank stabilization techniques to develop a restoration plan for Stillwater Creek.

Come Join Us! Plan to get your hands dirty!
